

Franco Zvilling

SOFTWARE ARCHITECTURE
FULL-STACK DEVELOPMENT
SYSTEMS / MANAGEMENT

PROFESSIONAL PROFILE

I am a developer focused on software architecture, design, and systems management. I work seamlessly across frontend (system and application architecture) and backend environments (service maintenance, databases, and APIs). With an advanced technical background in full-stack web development and experience driving digital transformation projects. Currently in my second year of a Psychology degree at UNC, which provides me with a broader perspective on human-computer interaction (HCI), user experience design, and artificial intelligence.

- francozvilling-programador@hotmail.com
- Los Altos y Las Vertientes, Cosquín, Córdoba
- Tax ID (CUIL): 20-39544244-1
- May 6, 1996 (30 Years old)
- Work Model: Remote / Hybrid

TECH STACK

- React.js / Vite
- TypeScript
- Node.js
- Firebase
- Strapi CMS
- JavaScript
- Tailwind + DaisyUI
- Gen AI APIs
- Antigravity (Agentic AI)

SKILLS & COMPETENCIES

- Problem Solving
- Design & Architecture
- Technical Leadership
- Technical English (B2)
- Business Acumen
- Adaptability
- Reengineering
- Prompt Engineering

PROFESSIONAL EXPERIENCE

Technical Lead / Software Architect

AERI Union | IT Department

2024 - 2026

- Technical Direction:** Led the internal digital transformation of the institution. Migrated legacy core infrastructure to a modern web environment and unified operational management.
- Data Management & Security:** Comprehensive administration of the institutional database. Designed encryption protocols and continuous synchronization of historical registers, ensuring member data privacy.
- Development & Maintenance:** Built and provided ongoing support for an exclusive member portal and a PWA. Implemented official messaging, notifications, and geographically segmented benefits.
- Cross-departmental Collaboration:** Continuous assessment of needs and custom module development to streamline daily workflows across various departments (Tourism, Women, Press).

Internal Architecture

Data Management

Institutional Impact

Full Stack Developer

IT Solutions Development (Freelance)

2023 - 2026

- Management Systems:** Custom application development (ERP) for inventory control, automation, and operational management tailored to SMEs and local businesses.
- Process Optimization:** Technical analysis, design, and implementation of solutions aimed at solving operational and commercial bottlenecks.
- Digital Presence:** Creation of high-conversion web platforms and technical integration of analytics tools.

Custom Development

Automation

FEATURED PROJECTS

Cognitive Architecture for Autonomous AI

Design and implementation of a conversational agent (LLM) based on a deep ontological model. Replaced the mechanical instruction approach with organic behavior, eliminating traditional robotic assistance biases.

- Corporate Impact:** Applicable to high-immersion Customer Service and Data Management via interfaces that query databases in natural language (Implicit RAG).
- Technologies:** Llama 3.1 70B, Vercel AI SDK, React, Node.js, SQLite.
- Skills:** Advanced Prompt Engineering, API Integration, State Management.

EDUCATION & TRAINING

Project Lead & Full Stack Micro1 Certification (2026)	Full Stack Web Development Advanced Training (2023)	B.A. in Psychology UNC (2nd Year)	R&D / Self-Taught AI, IT Architecture (Present)
